

Dangerous Wind: a Carol Golden Novel

In the third Carol Golden novel, Dangerous Wind, Carol is abducted from Chapel Hill, North Carolina where she lives with her grandmother and is thrown into an adventure that will take her to all seven continents. It involves a former boyfriend she doesn't remember (because of her amnesia), who is trying to bring about the downfall of the Western World according to people in power. While Carol is hunting for the bad guys she has to sort out the truth and figure out who they really are. But she isn't prepared for the shocking answer.
